# DO THEY HAVE TO SPELL IT OUT TO YOU? MAINLINE HIGH IMPACT GROUNDBAIT

Our **High Impact Groundbaits** are a complex blend of crushed particles and proteins, activated by Mainline's legendary enhancers and stimulants. They deliver rapid dispersion and suspension of attractors throughout the water column, promoting an instant and sustained feeding response from all species. When used as a carpet feed, method mix, a carrier for particles and pellets or as an added extra for stick and spod mixes; it's like the fish have demanded them, winter and summer alike...
