

# STARS ON ICE

Sub-zero temperatures prohibit the 'active' ingredients in each **MAINLINE DEDICATED FREEZER BAIT** from releasing the bait's locked-in attraction and liberating the incredible nutrition loaded into every boilie. That's why our Dedicated Boilies aren't available as a shelf life bait. And it's why each Mainline Freezer Bait has proven so incredibly successful, both in the short and long-term. Since 1990 in fact.

## FREEZER RANGE

Mainline DEDICATED FREEZER BOILIES are available in Cell™, Essential Cell™, Hybrid™, New Grange™ & Activ-8™ in 1kg, 5kg and 10kg bags. Sizes: 10mm, 15mm and 18mm.
