

# LINK UP!

OUT NOW!

Not only are Mainline Power Particles activated by THE CELL™, ESSENTIAL CELL™ or MULTI-STIM, they're now available powered by THE LINK™, to complement our new Dedicated Boilie Range that's tearing waters apart. We treat every single seed, nut and pulse in the same way as we treat our boilies; so they're fresh, bursting with natural attraction and prepared to absolute perfection. They are even PVA Friendly, giving you countless presentation options. If that's not enough, they'll stay fresh for 2 years if kept sealed, so there's no excuse for not keeping a jar or two in the barrow.
